

Stem Cell Healing & Healthcare™ Community
ROUNDTABLE DISCUSSION

6:30-9:00 pm Thursday, May 19

NJIT East Bldg., 6th Floor

Friends and community members,

As you may be aware, stem cell therapy has gotten a lot of press lately following permissive legislation in two states -- California and New Jersey. To gather perspectives from researchers, entrepreneurs, clinicians and community representatives, NJIT is hosting an informal, open-door discussion of stem cell issues and opportunities. We welcome your participation and invite you to forward this email to friends and colleagues. We anticipate a healthy and stimulating exploration of clinical, legal, social, economic and community implications of stem cell therapy. Please join us and pass this invitation along to friends & colleagues.

WHAT: Roundtable discussion on "Stem Cell Healing and Healthcare™ Opportunities & Issues"

WHEN: Thursday evening May 19, 6:30 - 9:00 pm

WHERE: NJIT Campus, 6th Floor East Building (Building #7 on Campus Map at: <http://www.njit.edu/campustour/>). Driving directions to ProposaLab@NJIT are attached. You'll want to follow directions to ProposaLab and then walk across Lock Street to East Building on the NJIT campus as illustrated on the campus map link above.

WHO: All interested parties, including community members, researchers, clinicians, business people, students, faculty and friends.

REFRESHMENTS: Minimal -- we recommend that you plan to have dinner beforehand

FORMAT: Whiteboard-facilitated group discussion

CONTACT: [Mailto:stemcell@proposalab.com](mailto:stemcell@proposalab.com) - please type "Stem Cell 5/19/05" in subject line
