Regenerative Medicine : A Primer for the Future of Healthcare Delivery

Saturday, October 15th, 2005
Malcolm Forbes Auditorium
AHS-Morristown Memorial Hospital

Course Registration

There is limited space for this activity. Please register quickly; seats will be filled on a first-come-first-served basis.

The registration fee is \$20 for physicians and \$10 for non-physicians. This fee covers all refreshments and materials for the symposium.

Atlantic Health System employees are exempt from the registration fees.

You may register by fax, telephone or email:

- Fax application below to: (973) 325-1120
- Telephone information to: (973) 325-0266, attention Sarah
- Email the information requested in the application below to:

Jacqueline.darcey@ahsys.org

Checks should be made out to "AHS CME fund." Applicable fees will be collected at the time of the activity or may be sent to:

*Department of Medicine
c/o Jacqueline Darcey, MD
100 Madison Avenue, Box #96
Morristown, New Jersey 07960*

Credit

This activity has been planned and implemented in accordance with the Essential Areas and Policies of the Medical Society of New Jersey through the joint sponsorship of the Atlantic Health System (AHS) and New Jersey Stem Cell Research and Education Foundation. AHS designates this educational activity for a maximum 6.5 Category 1 credits toward the AMA or MSNJ Physician's Recognition Award. Physicians should claim only those credits that he/she actually spent in the activity. Atlantic Health System is accredited by the Medical Society of New Jersey to provide continuing education for physicians.

Target Audience

This CME activity is intended for physicians in all medical and surgical subspecialties, as well as nurses, allied health professionals and physicians-in-training.

Objectives

Upon completion of this educational activity, the learner should be able to:

1. Clearly comprehend the impending introduction of stem cell therapeutics into non-oncologic specialties
2. Identify ways to actively participate in the education and development of these therapeutics
3. Enhance comprehension of the moral and ethical dilemmas implied by the use of embryonic and non-embryonic stem cells in human therapeutics.
